Dear Bill:

Congratulations! I have just read with great admiration, Philip Geyelin's article published in today's Washington Post, "Casey and the Focus of Evil." It is terrific and needed to be said! Thank you!

In addition to the great job you are doing with the CIA, speaking out as you did and alerting the nation to the meaning and magnitude of the Sandinista efforts in Central America, should be sufficiently shocking to arouse the press and the nation to the realities we face.

Again my congratulations.

Sincerely,
